

Dream by AL

Some people's dreams might be a dream holiday to Spain or America or anywhere in the world but mine is much bigger.

I am a foster girl but I do not like being called fostered because where I am living with my fantastic Mum and Papa and my 2 wonderful dogs and our fluffy cat seb is my home and is where I belong and they are my ideal perfect family. We're normal but not normal, we are crazy, funny and intriguing. In our spare time we love taking our dogs on a walk, watching netflix , play a board game or my favourite thing to do ever baking. I just love making cupcakes as they are my speciality. My newest bake I made yesterday was normal cupcakes with a dollop of chocolate cake mix and marbled it and they look lush. You're probably wondering what my dream is. My dream is to open a bakery with my friend Macey and win the great british bake off. Baking is my passion and i've seen loads of people on youtube and on television baking and making delicious treats and I want to be like them as well.

Part 2

Today was the last day of school. Everyone was signing each other's t-shirts because we don't know when they are going to see eachother again or if they even will meet again. It was very sad as i will miss all my friends but i have my whole life set out and planned. A week later i applied for a job at Waitrose in the bakery as i had got a A* in cooking. I made all sorts of pastries cakes, fresh bread doughnuts and everything else you can imagine. My monthly income would go straight into my bank account and I will save it all for 2 years as Macey is 2 years younger than me so when she leaves school we will be set up to buy a nice property to start our local business off.

Part 3

Macey

Today was my last day of school and like normal i went up Alysha's after school so we can talk it has been 2 years since Alysha had left school and were thinking about renting a unit off of her Uncle Ryan. I personally can't wait to get all the financial stuff done. I can't wait much longer to start baking bread and sweet delights. In our shop I will make cookies, bread, pizza, baguettes, pastries and meats. We are thinking of opening in our home town of Abertillery as it is very local to our houses and it's where we grew up. The name of our coffee shop / bakery will be named Angel Delights.

Part 4

Alysha

Today Macey and I went to see my uncle ryan sadly he had no units available for us to rent so we went to my house and looked on the internet and we found the perfect little corner coffee shop but it wasn't in Abertillery it was in Blaenau Gwent which was no problem because i had just got my drivers licence so i will be able to drive us there. So the next day we went to view the little corner shop and to our surprise it was perfect! We were so happy so we contacted the seller and we put a deposit in and then a couple of weeks later we bought it but the next part of it is renovating it. We went to IKEA and bought loads of tables and chairs and pretty table cloths and we went home and got them delivered to the building the next day along with a lot of different decorations.

Part 5

British Bake off

OMG! Our dream has actually come true!!! We're actually going to be on the great British Bake off!! The first round is cupcakes so i am going to make marble cakes. You need 4 eggs 250 g butter, sugar, flour mix it all in together put halpa cupcake case of the mix in and then put 2 tablespoons of cocoa powder and put a teaspoon of the chocolate mix on the top and get a toothpick and marble it.

We came in the top 2 for the first round but now we have to make a bread crown. It was quite hard but yet again we came in the top 2 so we have a chance of winning it. For the showstopper we have to make a rainbow cake. For this i made a chocolate cake and cut it in half and iced it with rainbow buttercream flowers with russian piping tips.

They are about to announce the winner.

The winner is

Alysha Legg

Well done everyone gave me a hug and I was presented with a £50,000 prize! I'm so happy. So dreams really come true.

The End
