

## My Dreams: Robot

There was a man named Jonathan, he loved robots.

He had a job at Jonathan's robotics.

He made life easy by making robots that help people with every-day, tasks.

He also had robots of his own, a cleaning robot, cook robot, friend robot and robot that makes your bed.

He was a robotic genius but he had other likings too.

Every day he went to robot fighting matches, the fighting robot Sawblade was being destroyed by Heavy Hamer but Sawblade was launched in the air Jonathan was paralyzed with fear!

He tried to run away but it was too late Sawblades saw got lodged in his head the impact was so hard it destroyed all his bones and there was blood everywhere!

The doctor's came and took him to the hospital. 1 YEAR LATER, when the doctors were done he was really different he was completely robotic.

But machinery can be hacked.....

1 Week later he was hacked, he started destroying everything, cities, towns, villages and even pet shops "I will destroy you all!!!!", Jonathan shouted " oh no.", random people screamed.
