

My Family.

One day my Aunty went to the shop to get food shopping. I was at home watching the News, feeling anxious because we should be in isolation due to a terrible vires killing people. Unfortunately, the cupboard was bare and we were hungry. The on line delivery was cancelled, so Aunty Katie had to go to shop herself. I was scared if she got crooner virus.

Suddenly, when I was watching the News, it was reported that there was a fire at Morrison's. Afraid, I tried to phone my aunty, but she didn't answer her phone. I ran upstairs and hid under my bed. Me and Daddy were scared. Feeling helpless then I cry.

Just then my dog Missy started barking, so I ran down stairs and opened the door. My aunty was there. I was feeling pleased and delighted because they are ok. I am happy when I am with my family.
