

My Lockdown Story by LW

Lockdown started on the 23rd of March 2020.

It happened because of a virus called Coronavirus, this virus is a germ that spreads and goes inside you, it makes you cough and be very ill, lots of people have died of this virus.

Boris Johnson the prime minister of the United Kingdom had the virus and was rushed to hospital and was on a life support machine, Boris is ok now.

There are parks and shops that are closed, and you cannot eat in any food places.

Schools where closed, and you had to queue for food.

We could not leave our houses or see our family or friends

Everyone clapped for the Doctors and Nurses on Thursdays at 8pm to say Thankyou .

42000 people have died from coronavirus .
